About Us

The School of Library and Information Science at San José State University offers a nationally ranked Master of Library and Information Science degree, which is fully accredited by the American Library Association. The School also offers a Master of Archives and Records Administration degree. The School is a nationally recognized leader in making effective use of leading edge technologies for distance learning.

A unique partnership between the San José School of Library and Information Science and the Queensland University of Technology (QUT) enables the School to offer the San José Gateway PhD program in Library and Information Science. QUT is an Australian university known for its dynamic research culture and internationally recognized scholars.

SCHOOL OF LIBRARY
AND INFORMATION SCIENCE

San José Gateway PhD Program

Offered through a
partnership between
the San José School
of Library and
Information Science
and Queensland
University
of Technology

Can a doctoral degree help you achieve your goals?

- Are you an information professional who wants to be better prepared for new career options in research, teaching, and leadership?
- Do you want to broaden your horizons through involvement in guided study by leading scholars with global connections?
- Do you want to learn how to be an effective educator in a university setting?
- Do you have a passion for discovery, for seeing things in a new way, and for solving important problems?
- Do you want to make a significant and original contribution to knowledge in your field?

If so, the San José Gateway PhD Program can help you reach your goals. As a student in our program, you'll work closely with faculty from two continents, who will challenge your thinking, support your learning, and mentor you as you conduct research on a topic you are passionate about. Our doctoral program is designed to prepare you for research, faculty, and leadership positions in Library and Information Science.

Program Highlights

- Receive guidance and one-on-one mentoring from **faculty** who are award-winning scholars and educators, representing two continents and a truly international perspective.
- Prepare for your future working in **virtual learning environments**—benefit from our recognized expertise deploying sophisticated distance learning technology, with the opportunity for graduate-level teaching in our online MLIS program.
- Conduct **original research** in an important area of Library and Information Science.
- Take advantage of the convenience and flexibility of a **part-time program**—with brief, on-site sessions and remaining program elements delivered through distance learning.
